H Lighting Company, Inc. • St. Louis, Missouri • 314/773-1176 • FAX 314/773-2890

All H & H Lighting Fixtures are completely wired for 118 volts 60 cycle A.C. operation. Ready for installation. All fixtures bear the I.B.E.W., A. F. of L. and Underwriters Laboratories labels.

3000 SERIES

MOUNTING - Complete with knockouts for surface mounting. Conduit knockouts are supplied on back.

ELECTRICAL - Furnished standard with UL listed ballasts, for 120 Volt 60 Hz A.C. operation. Other voltages and accessories available. Fixtures bear the I.B.E.W., A.F. of L., and Underwriters' Laboratories, Inc. labels.

APPLICATION - An ideal low silhouette unit for all limited depth mounting areas with cornices and valances, wall cases, displays, and many under-cabinet locations.

CONSTRUCTION - Wireway and ends die-formed of code gauge steel, finished in automatic bonderizing, rust preventative process, with high reflectivity baked white enamel on inside reflector. Reflector is removable for easy access to electrical components. Outside finished in dark walnut, other finishes available upon request.
